

Index

Note: Page numbers of article titles are in **boldface** type

- Acinar-cell tumors, electron microscopy of, 60
- Adenocarcinoid tumor, of alimentary tract, electron microscopy of, 54
- Adenocarcinoma, of alimentary tract, electron microscopy of, 51-53
- of bile duct, electron microscopy of, 59
- of liver, electron microscopy of, 57-58
- of lung, electron microscopy of, 8-14
- of prostate gland, electron microscopy of, 104-105
- of rete testis, electron microscopy of, 101
- of urethra, electron microscopy of, 108
- Adenoma, of urethra, electron microscopy of, 108
- Adenomatoid tumor, of epididymis, electron microscopy of, 102
- of spermatic cord, electron microscopy of, 103
- pathology of, 33-34
- Alimentary tract, tumors of, electron microscopy of, 51-56
- Alveolar rhabdomyosarcoma, histology of, 68-70
- Alveolar soft-parts sarcoma, electron microscopy of, 257-258
- Anaplastic variant of seminoma, electron microscopy of, 95, 97
- Angioblastic meningioma, electron microscopy of, 174
- Angiosarcoma, electron microscopy of, 253-255
- Annular tubules, in sex-cord tumors, electron microscopy of, 140-141
- Antoni areas, in schwannoma, 188-189
- Asbestos exposure, mesothelioma and, 37
- Aspiration biopsy, of lung neoplasms, electron microscopy of, 26, 28
- Astrocytoma, electron microscopy of, 157-164
- Biliary tract, extrahepatic, tumors of, electron microscopy of, 59-61
- Biopsy, aspiration, of lung neoplasms, electron microscopy and immunohistochemistry of, 26, 28
- Birbeck granules, in histiocytosis, 244-245
- Blastemic cells, in Wilms' tumor, 82, 84
- Brenner tumor, in ovary, electron microscopy of, 127-130
- Bronchioalveolar-cell carcinoma, electron microscopy of, 13-14
- Buschke-Lowenstein, giant condyloma of, electron microscopy of, 92
- Call-Exner bodies, in granulosa-cell tumors, electron microscopy of, 132
- Carcinoid tumor, of alimentary tract, electron microscopy of, 54
- of lung, electron microscopy of, 19-21
- of prostate, electron microscopy of, 106
- of testis, electron microscopy of, 100
- Carcinoma, cloacogenic, electron microscopy of, 53
- embryonal, in male genital tract, electron microscopy of, 97
- in ovary, electron microscopy of, 142
- enterochromaffin cells in, electron microscopy of, 54-55
- hepatocellular, electron microscopy of, 57
- of alimentary tract, small-cell, electron microscopy of, 53-54
- squamous, electron microscopy of, 51-52
- of bile duct, electron microscopy of, 57
- of choroid plexus, electron microscopy of, 166-167
- of lung, large-cell undifferentiated, electron microscopy of, 14
- oat-cell, electron microscopy of, 21-22
- small-cell undifferentiated, electron microscopy of, 19-23
- squamous, electron microscopy of, 3-7
- of ovary, clear-cell, electron microscopy of, 125, 127

- Carcinoma (*Continued*)
 of ovary, endometrioid, electron microscopy of, 124-125
 small-cell, electron microscopy of, 150
 of prostate gland, electron microscopy of, 106
 undifferentiated, vs. large-cell lymphoma, electron microscopy of, 209-217
 verrucous, electron microscopy of, 92
 yolk-sac, electron microscopy of, 97
 Carcinosarcoma, of prostate gland, electron microscopy of, 106-107
 Central nervous system, tumors of, 157-198
 Cervix, clear-cell carcinoma of, electron microscopy of, 126-127
 Charcot-Böttcher filaments, in Sertoli's cell tumors, electron microscopy of, 137
 Choriocarcinoma, electron microscopy of, 97, 99
 Choroid plexus neoplasms, electron microscopy of, 166-167
 Clear-cell carcinoma, of ovary, electron microscopy of, 125, 127
 Clear-cell sarcoma, of tendon sheaths, electron microscopy of, 185-186
 Clear-cell sugar tumor, of lung, electron microscopy of, 26
 Cloacogenic carcinoma, of anal canal, drug microscopy of, 53
 Condyloma, giant, electron microscopy of, 92
 Cystadenocarcinoma, of liver, electron microscopy of, 58
 of pancreas, electron microscopy of, 59-60
 Cystadenoma, of epididymis, electron microscopy of, 102
 of ovary, mucinous, electron microscopy of, 124
 papillary, electron microscopy of, 118, 121
- Desmin, in rhabdomyosarcoma diagnosis, 70
 Desmoplastic mesothelioma, pathology of, 39, 43
 Desmosomes, in squamous carcinoma, electron microscopy of, 3-4
 Dysgerminoma, electron microscopy of, 142
- Electron microscopy, of alimentary tract tumors, 51-56
 of central nervous system tumors, 181-198
 of extrahepatic biliary tract tumors, 59-61
 of gynecologic neoplasms, 117-156
 of leukemia and lymphoma, 199-247
 of liver tumors, 57-59
 of lung neoplasms, 1-30
 of male genital tract tumors, 91-115
 of pancreatic tumors, 59-61
 of pigmented cell tumors, 181-198
 of Schwann's cell tumors, 181-198
 of small-cell pediatric tumors, 63-89
 of soft-tissue tumors, 239-260
 of tumors of serosal tissue origin, 31-50
- Embryonal carcinoma, of male genital tract, electron microscopy of, 97
 ovarian, electron microscopy of, 142
 Embryonal rhabdomyosarcoma, histology of, 68
 Embryonal tumors, of central nervous system, electron microscopy of, 167-171
 Endodermal sinus tumor, of male genital tract, electron microscopy of, 97
 of ovary, electron microscopy of, 145, 148
 Endometrioid adenocarcinoma, of prostate gland, electron microscopy of, 104-106
 Endometrioid carcinoma, of ovary, electron microscopy of, 124-125
 Enterochromaffin cells, tumors of, electron microscopy of, 54-55
 Ependymoblastoma, electron microscopy of, 169
 Ependymoma, electron microscopy of, 166
 Epididymis, tumors of, electron microscopy of, 101-102
 Epithelial mesothelioma, pathology of, 39
 Epithelial tumors, of alimentary tract, electron microscopy of, 51-54
 of bile duct, electron microscopy of, 59-60
 of liver, electron microscopy of, 57-58
 of pancreas, electron microscopy of, 59-60
 Epithelioid hemangioma, in male genital tract, electron microscopy of, 92, 94
 Epithelioid sarcoma, electron microscopy of, 256
 Esophagus, squamous carcinoma of, electron microscopy of, 51-52
 Ewing's tumor (sarcoma), electron microscopy of, 76, 78-79
 extraskeletal, electron microscopy of 256-257
 histology of, 75-76
 immunohistochemistry of, 76
 vs. lymphoma, 219, 222
- Fibrillary astrocytoma, electron microscopy of, 158
 Fibroblastic tumors, electron microscopy of, 250-251
 Fibroma, subpleural, pathology of, 36-37
 Fibrosarcoma, electron microscopy of, 250-251

- Fibrous mesothelioma, pathology of, 36-37
- Fixatives, for electron microscopy, of lung neoplasms, 1-2
- Gangliocytoma, electron microscopy of, 171
- Ganglioma, electron microscopy of, 171
- Ganglioneuroblastoma, histology of, 64
- Ganglioneuroma, histology of, 64
- Gastrointestinal tract, tumors of, electron microscopy of, 51-56
- Gemistocytic astrocytoma, electron microscopy of, 161
- Genital tract, female, neoplasms of, electron microscopy of, 117-156
- male, tumors of, electron microscopy of, 91-115
- Germ-cell neoplasms, in female genital tract, electron microscopy of, 142-148
- of testis, electron microscopy of, 94-99
- Giant-cell astrocytoma, electron microscopy of, 161, 163-184
- Giant condyloma of Buschke-Lowenstein, electron microscopy of, 92
- Glandular differentiation, in lung carcinoma, 14
- Glial fibrillary acid protein, in neuroectodermal tumor diagnosis, 82
- Glioblastoma, electron microscopy of, 157-164
- Gliosarcoma, electron microscopy of, 158
- Glomus tumor, electron microscopy of, 253
- Glycogen, in Ewing's sarcoma, 75
- in sugar tumor of lung, 26
- Gonadoblastoma, of testis, electron microscopy of, 100
- Granular-cell tumor, in soft tissue, electron microscopy of, 257
- Granulosa-cell tumors, in female genital tract, electron microscopy of, 130-135
- Gynecologic neoplasms, electron microscopy of, 117-156
- Hairy-cell leukemia, electron microscopy of, 232
- Hemangioblastoma, electron microscopy of, 174-175
- Hemangiopericytoma, electron microscopy of, 174, 254-255
- Hepatoblastoma, electron microscopy of, 58
- Hepatocellular carcinoma, electron microscopy of, 57
- Histiocytic medullary reticulosis, electron microscopy of, 232, 237
- Histiocytosis, malignant, electron microscopy of, 232, 237
- Histiocytosis X, electron microscopy of, 237, 244-245
- Hypercalcemia, with ovarian carcinoma, electron microscopy of, 150
- Immunoblast, electron microscopy of, 210
- Immunohistochemistry, of Ewing's sarcoma, 76
- of lung neoplasms, 1-30
- of malignant peripheral neuroectodermal tumor, 79, 81-82
- of neuroblastoma, 65-66
- of rhabdomyosarcoma, 68-70
- of small-cell pediatric tumors, 63-89
- of Wilms' tumor, 84
- Inclusion cyst, ovarian, electron microscopy of, 118
- Joint, sarcoma of, electron microscopy of, 255
- Kaposi's sarcoma, electron microscopy of, 254
- Karnovsky fixative, modified, in electron microscopy, 1
- Kidney, Wilms' tumor of, electron microscopy of, 84
- histology of, 82, 84
- immunohistochemistry of, 84
- Kulchitsky's cells, in lung neoplasms, 19
- Langerhans' cells, in histiocytosis diagnosis, 244
- in pulmonary adenocarcinoma, 14
- Large-cell undifferentiated carcinoma, of lung, electron microscopy of, 14
- Leiomyosarcoma, electron microscopy of, 107, 251-253
- Leu-7, in melanoma diagnosis, 195-196
- Leukemia, electron microscopy of, 199-247
- Leukemic reticuloendotheliosis, electron microscopy of, 232
- Leydig's cell tumors, in female genital tract, electron microscopy of, 135, 137, 139
- in male genital tract, electron microscopy of, 99
- Lipid-cell tumors, in female genital tract, electron microscopy of, 141-142
- Liposarcoma, electron microscopy of, 253
- Liver, tumors of, electron microscopy of, 57-59

- Lung, adenocarcinoma of, electron microscopy of, 8-14
 neoplasms of, classification of, 2
 electron microscopy of, 1-30
- Luse bodies, in nerve sheath tumors, 192
- Lymphoblast, vs. myeloblast, 200-209
- Lymphoma, electron microscopy for, 199-247
 large-cell, vs. undifferentiated carcinoma, 209-217
 of lung, electron microscopy of, 25
 of testis, electron microscopy of, 100
 vs. small round-cell neoplasms, 217-227
- Male genital tract, tumors of, electron microscopy of, 91-115
- Malignant peripheral neuroectodermal tumor, electron microscopy of, 82
 histology of, 79
 immunohistochemistry of, 79, 81-82
- Medulloblastoma, electron microscopy of, 169-170
- Medulloepithelioma, electron microscopy of, 167
- Megakaryoblasts, electron microscopy of, 229-230
- Megakaryocytic leukemia, electron microscopy of, 229-232
- Melanoma, electron microscopy of, 183, 195-196
 of soft parts, electron microscopy of, 185-186
 variants of, electron microscopy of, 185-188
- Melanosomes, electron microscopy of, 181-182
- Melanotic schwannoma, electron microscopy of, 196
- Meningioma, electron microscopy of, 171, 174
- Mesenchymal tumors, of alimentary tract, electron microscopy of, 55
 of bile duct, electron microscopy of, 61
 of liver, electron microscopy of, 59
 of male genital tract, electron microscopy of, 92, 94
 of pancreas, electron microscopy of, 61
- Mesothelioma, benign, pathology of, 36-37
 diffuse malignant, pathology of, 37-43
 fibrous, pathology of, 36-37
 localized, pathology of, 36-37
 mixed, pathology of, 43
 multicystic peritoneal, pathology of, 34, 36
 of spermatic cord, electron microscopy of, 103
 of tunica vaginalis, electron microscopy of, 103
 poorly differentiated, pathology of, 47
- Metastasis, in male genital tract, electron microscopy of, 91
- Methacarn fixative, in electron microscopy, 1-2
- Monocytes, electron microscopy of, 205
- Mucinous tumors, ovarian, electron microscopy of, 121-124
- Mucus cell, lung tumors originating in, 8, 10
- Multicystic peritoneal mesothelioma, pathology of, 34, 36
- Myeloblast, vs. lymphoblast, 200-209
- Myelomonocytic leukemia with abnormal marrow eosinophilia, 245
- Myeloperoxidase, in leukemia diagnosis, 205, 209
- Myoepithelial-cell tumor, electron microscopy of, 253
- Myofibroblasts, in soft-tissue tumors, 250
- Neoplasm(s). See also *Tumor(s)*.
 gynecologic, 117-156
 lung, electron microscopy and immunohistochemistry of, 1-30
 neuroendocrine, electron microscopy of, 19-23
- Nephroblastoma, electron microscopy of, 84
 histology of, 82, 84
 immunohistochemistry of, 84
- Nerve sheath tumors, electron microscopy of, 188-196
- Neuroblastoma, cerebral, electron microscopy of, 167, 169
 electron microscopy of, 66-68
 histology of, 64-65
 immunohistochemistry of, 65-66
 vs. lymphoma, 222-226
- Neuroectodermal tumor, malignant peripheral, electron microscopy of, 82
 histology of, 79
 immunohistochemistry of, 79, 81-82
- Neuroendocrine neoplasms, of lung, electron microscopy of, 19-23
- Neurofibroma, electron microscopy of, 192
- Neurosarcomatous transformation, in melanoma, 186, 188
- Nevus(i), electron microscopy of, 182-185
- NSE enzyme, in neuroectodermal tumor diagnosis, 79, 81
- Oat-cell carcinoma, of lung, electron microscopy of 21-22
- Oligodendroglioma, electron microscopy of, 164, 166
- Ovary, Brenner tumor in, electron microscopy of 127-130

- dysgerminoma of, electron microscopy of, 142
- embryonal carcinoma of, electron microscopy of, 142
- endodermal sinus tumor of, electron microscopy of, 145, 148
- endometrioid carcinoma of, electron microscopy of, 124-125
- mucinous tumors of, 121-124
- serous tumors of, electron microscopy of, 118-121
- small-cell carcinoma of, electron microscopy of, 150
- Pancreas, tumors of, electron microscopy of, 59-61
- Pancreatoblastoma, electron microscopy of, 60
- Papillary cystadenoma, ovarian, electron microscopy of, 118-121
- Papilloma, of choroid plexus, electron microscopy of, 166-167
- Pediatric tumors, small-cell, electron microscopy and immunohistochemistry of, 63-89
- Penis, tumors of, electron microscopy of, 92, 94
- Peripheral nerve sheath tumors, electron microscopy of, 188-196
- Peripheral neuroectodermal tumor, electron microscopy of, 82
- histology of, 79
- immunohistochemistry of, 79, 81-82
- Pigmented cells, tumors of, electron microscopy of, 181-198
- Pineoblastoma, electron microscopy of, 170-171
- Pineocytoma, electron microscopy of, 170-171
- Pleomorphic xanthoastrocytoma, electron microscopy of, 163-164
- Pleura, fibrous tumor of, pathology of, 36-37
- Pleural fluid, aspiration biopsy of, electron microscopy and immunohistochemistry of, 28
- Pneumocytes (Type II), adenocarcinoma originating in, 10
- Promyelocytic leukemia, electron microscopy of, 227-229
- Prostate gland, tumors of, electron microscopy of, 104-107
- Prostatic hyperplasia, benign, electron microscopy of, 104
- Protoplasmic astrocytoma, electron microscopy of, 158
- Psammoma bodies, in meningioma, 171
- Rete testis, adenocarcinoma of, electron microscopy of, 101
- Rhabdomyoblastic tumor, in prostate area, electron microscopy of, 106
- Rhabdomyosarcoma, classification of, 69-70
- electron microscopy of, 71-75
- histology of, 68-70
- immunohistochemistry of, 70
- of spermatic cord, electron microscopy of, 103-104
- vs. lymphoma, 219, 222
- Rosettes, in pineal tumors, 170
- S-100 protein, in melanoma diagnosis, 195
- Sarcoma, alveolar, of soft parts, electron microscopy of, 257-258
- epithelioid, electron microscopy of, 256
- Ewing's, electron microscopy of, 76, 78-79
- histology of, 75-76
- immunohistochemistry of, 76
- of lung, electron microscopy of, 23, 25
- of prostate gland, electron microscopy of, 106
- of soft tissue, electron microscopy of, 249-260
- of tendon sheath, clear-cell, electron microscopy, 185-186
- synovial, electron microscopy of, 255
- Sarcomatoid mesothelioma, pathology of, 39, 43
- Schwannoma, electron microscopy of, 188-192
- melanotic, electron microscopy of, 196
- Schwann's cells, tumors of, electron microscopy of, 181-198
- Scrotum, tumors of, electron microscopy of, 92
- Seminal vesicle, tumors of, electron microscopy of, 104
- Seminoma, electron microscopy of, 95, 97
- Serous tumors, of female genital tract, electron microscopy of, 118-121
- Serosal tissue, tumors originating from, electron microscopy of, 31-50
- Sertoli's cell tumors, in female genital tract, electron microscopy of, 135, 137, 139-140
- in male genital tract, electron microscopy of, 99-100
- Sex-cord tumors, in female genital tract, electron microscopy of, 130-142
- Small-cell carcinoma, of alimentary tract, electron microscopy of, 53-54
- of lung, undifferentiated, electron microscopy of, 19-23
- of ovary, electron microscopy of, 150

- Small-cell carcinoma (*Continued*)
 of prostate gland, electron microscopy of, 106
 pediatric, electron microscopy and immunohistochemistry of, 63-89
- Small round-cell neoplasms, vs. lymphoma, 217-227
- Soft tissue, tumors of, electron microscopy in, 239-260
- Spermatic cord, tumors of, electron microscopy of, 103-104
- Spermatocytic seminoma, electron microscopy of, 97
- Squamous carcinoma, of alimentary tract, electron microscopy of, 51-52
 of lung, electron microscopy of, 3-7
 vs. large-cell lymphoma, 214, 217
- Squamous differentiation, in lung carcinoma, 14
- Steroid-cell tumors, in female genital tract, electron microscopy of, 141-142
- Subependymal giant-cell astrocytoma, electron microscopy of, 164
- Subependymoma, electron microscopy of, 166
- Subpleural fibroma, pathology of, 36-37
- "Sugar" tumor, of lung, 26
- Synovial sarcoma, electron microscopy of, 255
- Testicular tunics, tumors of, electron microscopy of, 103
- Testis, neoplasms of, electron microscopy of, 94-101
- Tuberous sclerosis, with astrocytoma, 164
- Tumor(s). See also *Neoplasm(s)*.
 of alimentary tract, electron microscopy of, 51-56
 of central nervous system, electron microscopy of, 157-158
 of enterochromaffin cells, electron microscopy of, 54-55
 of extrahepatic biliary tract, electron microscopy of, 59-61
 of liver, electron microscopy of, 57-59
 of male genital tract, electron microscopy of, 91-115
 of pancreas, electron microscopy of, 59-61
 of pigmented cells, electron microscopy of, 181-198
 of Schwann's cells, electron microscopy of, 181-198
 of serosal tissue origin, electron microscopy of, 31-50
 of soft tissue, electron microscopy of, 249-260
- Tunica vaginalis, tumor of, electron microscopy of, 103
- Undifferentiated carcinoma, of lung, large-cell, electron microscopy of, 14
 small-cell, electron microscopy of, 19-23
- Urethra, tumors of, electron microscopy, 108-109
- Verrucous carcinoma, electron microscopy of, 92
- Vimentin, in rhabdomyosarcoma diagnosis, 70
- Wilms' tumor, electron microscopy of, 84
 histology of, 82, 84
 immunohistochemistry of, 84
- Wolffian-origin tumors, in female genital tract, electron microscopy of, 148
- Xanthoastrocytoma, electron microscopy of, 163-164
- Yolk-sac carcinoma, electron microscopy of, 97
- Yolk-sac tumor, ovarian, electron microscopy of, 145, 148
