

Index

Note: Page numbers of article titles are in boldface type.

- ABO INCOMPATIBILITY, crossmatch and, 190
in hemolytic disease of newborn, 110-116
transfusion reactions and, 229-230
- ABO matching, in emergency cardiovascular surgery, 78-81
- ABO-Rh compatibility, in pretransfusion testing, 169-179
- ABO-Rh typing, in autoimmune hemolytic anemia, 195-198
- ABO system, 141
- ABO typing, in emergency transfusion, 78-81
- Adult respiratory distress syndrome (ARDS), fluid therapy in, 39-49
- Agglutination, of red blood cells, 155-167
- Albumin, erythrocyte agglutination and, 165-166
fluid therapy and, 50-52
- Alloantibody(ies), detection, in autoimmune hemolytic anemia, 199-203
removal, by plasma exchange, 94-95
- Anemia, autoimmune hemolytic, transfusion in, 193-210
- Ankylosing spondylitis, HLA-B27 antigen and, 130-131
- Antibody(ies), antiglobulin test and, 176, 186-191
blood group of, 79
cell destruction and, 211-219
- Antibody screening, 112-113
in pretransfusion testing, 169-179, 181-192
- Anticoagulant(s), in blood storage, 4-6, 22-25
- Anti-D antigen, Rh immunization and, 111-113
- Antigen(s), erythrocyte, in autoimmune hemolytic anemia, 198-199
high incidence types, 145-146
HLA, 123-135
disease associations and, 130-132
Kell type, in hemolytic disease of newborn, 111
low incidence types, 144-145
matching, in renal transplantation, 125-129
shared, 147-148
- Antiglobulin test, direct vs. indirect, 199-200
in crossmatch, 176, 186-191
- Autoantibody(ies), in autoimmune hemolytic anemia, 194-195
- Autoantibody(ies) (*Continued*)
removal, by plasma exchange, 92-94
specificity, 203-205
- Autoimmune hemolytic anemia, transfusion in, 193-210
- BLOOD, whole. See *Whole blood*.
- Blood bank, inventory levels, 169-170
symposium on, 3-252
- Blood cells. See under specific types.
- Blood components, conservation, 69-72
in hemotherapy, 3-19
transfusion of, in cardiovascular surgery, 75-82
- Blood donor, screening, 243-245
selection, 183-184
in autoimmune hemolytic anemia, 205-207
- Blood group(s), recent advances in, 137-154
- Blood group antibodies, 79. See also *Antibody(ies)*.
- Blood group loci, chromosomal linkage of, 137-141
- Blood storage, 4-6, 22-25
- Blood transfusion. See *Transfusion*.
- Blood typing, in pretransfusion testing, 169-179. See also *ABO compatibility; ABO system; ABO typing; HLA antibodies*.
- Blood volume, deficiency, fluid therapy in, 55-56
- CARDIOPULMONARY BYPASS SYSTEM, 65-69
- Cardiovascular surgery, hemotherapy in, 65-85
- Cell, destruction, antibody-mediated, 211-219
- Chromosome, HLA antigens and, 133
linkage, blood group loci and, 137-141
- Clot formation, of heparinized blood, 77
- Clotting, defects of, after cardiopulmonary bypass, 75-78
- Clotting factors, changes in level, in cardiovascular surgery, 73-75
- Clumping. See *Agglutination*.

- Coagulation. *See Clotting.*
- Cold agglutinin syndrome, 207-208
- Colloids, as fluid therapy, in the critically ill, 35-63
- Colton system, 144
- Compatibility testing, pretransfusion, 169-179, 181-192
- in autoimmune hemolytic anemia, 193-210
 - in cardiovascular surgery, 78-81
- Complement, in phagocytosis, 217-218
- Complement activation, 216-217
- Coombs' test. *See Antiglobulin test.*
- Crossmatch, cost effectiveness of, 191
- in emergency cardiovascular surgery, 78-81
 - preoperative, 169-179
 - pretransfusion, evaluation of, 181-192
- Cryoprecipitate, transfusion of, 14-17
- Crystalloids, as fluid therapy, in the critically ill, 35-63
- Cytapheresis. *See specific procedure, as Leukapheresis.*
- Cytolysis, antibody-mediated, 211-219
- DIEGO SYSTEM, 144**
- Disseminated intravascular coagulation, incompatible transfusion and, 228-229
- Duffy system, 144
- EDEMA, pulmonary, fluid therapy in, 39-49**
- Erythrapheresis, therapeutic, 101-102
- Erythroblastosis fetalis. *See Hemolytic disease of newborn.*
- Erythrocyte(s), agglutination, 155-167
- destruction, antibody-mediated, 211-219
 - transfusion of, 8-10
 - in the critically ill, 52 - washing, 224, 245-246
- Erythrocyte antigens, 144-146
- Rh system and, in hemolytic disease of newborn, 107-122
 - typing, in autoimmune hemolytic anemia, 198-199
- Erythrocyte membrane, 155-159
- agglutination and, 161-162
- FETAL-MATERNAL HEMORRHAGE, dose of Rh immune globulin and, 115-117**
- Fluid therapy, algorithms, in the critically ill, 53-60
- in the critically ill, 35-63
- GENE MAPPING, of blood group loci, 137-141**
- Graft-versus-host disease, blood transfusion and, 130
- in marrow transplantation, 129
- HEMAPHERESIS, therapeutic, 87-106.** *See also specific type of therapy, as Leukapheresis.*
- Hemochromatosis, HLA-A antigen and, 132
- Hemocytoblast. *See Stem cell.*
- Hemoglobinuria, paroxysmal cold, 208-209
- Hemolysis, antibodies and, 211-219
- Hemolytic disease of newborn, 107-122
- Hemolytic transfusion reactions, 79, 221-231
- Hemorrhage, maternal-fetal, dose of Rh immune globulin and, 115-117
- Hemotherapy, symposium on, 3-252. *See also specific procedures, as Leukapheresis.*
- Hepatitis, viral, transfusion-transmitted, 233-252
- Hepatitis A virus, 240-241
- Hepatitis B immune globulin (HBIG), 247
- Hepatitis B virus, 241-242
- Hepatitis non-A, non-B, 242-243
- Histocompatibility complex. *See HLA.*
- Histocompatibility testing, mixed lymphocyte culture and, 128
- HLA antigens, disease associations and, 130-132
- HLA loci, 123-125
- HLA typing, clinical applications of, 123-135
- Hyperleukocytosis, leukapheresis and, 98-99
- Hyperviscosity syndrome, plasmapheresis and, 95-96
- Hypothermia, therapeutic, in cardiovascular surgery, 82-84
- ICTERUS NEONATORUM.** *See Hemolytic disease of newborn.*
- Immune adherence, in cell destruction, 212-215
- Immune globulin, prophylaxis, for hepatitis, 246-248
- Immunization, active, for hepatitis, 248
- passive, for hepatitis, 246-248
- Immunoglobulins, in cytolysis, 212-215
- Infection, hepatic, transfusion-transmitted, 233-252
- Interfacial tension, cell-cell interactions and, 162-163
- JAUNDICE, hemolytic disease of newborn and, 115**
- KELL SYSTEM, 143-144**
- Kidney, failure, after transfusion, 225
- transplantation, HLA typing in, 125-129
- LEUKAPHERESIS, therapeutic, 97-100**
- Leukemia, chronic, leukapheresis and, 99-100
- Liver, inflammation, transfusion-transmitted, 233-252
- Low ionic strength salt solution, 185
- Lutheran system, 143

- MARROW, transplantation, HLA typing in, 128-129
 Medulla. *See Marrow.*
 Membrane, of red blood cell, 155-159
 Metabolic change, in stored blood, 22-29
 Micropore filter, 82
 MNSs system, 141-142
- OLIGURIA, fluid therapy in, 56-57
- PATERNITY TESTING, HLA typing in, 133
 Phagocytosis, antibody-mediated, 211-215
 complement and, 216-218
 Plasma, exchange. *See Plasmapheresis.*
 fresh frozen, transfusion of, 13-14
 Plasmapheresis, in hemolytic disease of
 newborn, 119-120
 physiology of, 89-91
 therapeutic, 91-97
 Platelet(s), transfusion of, 10-13
 HLA typing in, 129
 Plateletpheresis, therapeutic, 100-101
 Pretransfusion testing, type and screen in,
 169-179
- RED BLOOD CELL. *See Erythrocyte.*
 Renal failure, after transfusion, 225
 Resuscitation, of emergency patients, 53-55
 Rh factor, maternal immunization to, in hemo-
 lytic disease of newborn, 107-122
 Rh immune globulin, in prevention of Rh
 immunization, 108-109, 113-119
 Rh immunization, in hemolytic disease of
 newborn, 107-122
 plasma exchange in, 94-95
 Rh matching, in emergency cardiovascular
 surgery, 78-81
 Rh system, 142-143
 Rh typing, in emergency transfusion, 78-81
- SEROLOGIC TESTS, in hepatitis, 245
 Shock, hemorrhagic, fluid management in,
 35-63
 Shock lung. *See Adult respiratory distress
 syndrome.*
 Sickle cell disease, erythrapheresis and, 101
 Spherocyte(s), partial phagocytosis and, 215
 Spondylitis, ankylosing, HLA-B27 antigen and,
 130-131
 Stem cell, collection, therapeutic, 102-103
 Storage lesion, blood, 4-6, 22-29
 Surgery, elective, crossmatch guidelines for,
 172-173
- THROMBOCYTES. *See Platelets.*
 Thrombotic thrombocytopenic purpura,
 plasmapheresis and, 96
 Transfusion, blood, in cardiovascular surgery,
 75-82
 in heart surgery, 65-85
 compatibility testing in, 169-179
 hemolytic reactions in, 79, 221-231
 in autoimmune hemolytic anemia, 193-210
 in hemolytic disease of newborn, 118
 massive, 21-34
 of blood components, 3-19
 HLA typing in, 129-130
 reactions, 78-79, 221-231
 transmission of hepatitis and, 233-252
 Transplantation, of kidney, HLA typing in,
 125-129
 of marrow, HLA typing in, 128-129
 Type and screen, in pretransfusion testing,
 169-179
- UNIVERSAL DONOR BLOOD, 183-184
 Urticarial transfusion reactions, 221-227
- WHITE BLOOD CELL(S), exchange, 97-100
 Whole blood, transfusion of, 6-8
 in the critically ill, 52
